TECHNO QUIZ BOWL MECHANICS 2023

Team Formation:

- Each year will have one team representative which consists of three (3) members.
- Teams will have their team identity as their team name.

Quiz Format:

1. Round Structure:
   - The Techno Quiz will feature multiple rounds, each with its own unique format and level of difficulty: "Easy," "Moderate," "Difficult," and a potential "Clincher" round for tiebreakers.

2. Easy Round:
   - The "Easy" round will consist of purely multiple-choice questions.
   - Each year level will provide 10 multiple-choice questions for this round.
   - Participants will earn 2 points for each correct answer.
   - Each team will be given 10 seconds to answer.

3. Moderate Round:

   - The "Moderate" round will include a combination of multiple-choice questions and identification questions.
   - Each year level will provide 4 multiple-choice questions and 4 identification questions for this round.
   - Participants will earn 5 points for each correct answer.
   - Each team will be given 30 seconds to answer.

4. Difficult Round:

   - The "Difficult" round will feature open-ended questions where participants must supply their answers.
   - Each year level will contribute 5 questions for this round.
   - Participants will earn 10 points for each correct response.
   - Each team will be given one(1) minute to answer.

5. Clincher Round (Tiebreaker):

   - The "Clincher" round will come into play in the event of a tie to determine the overall winner.
   - The format and questions for this round will be determined by the event organizers and could include a mix of challenging question types.

6. Random Question Selection:

- To maintain fairness and unpredictability, questions for each round will be selected randomly from the pool provided by each year level.
- This ensures that each team encounters a unique set of questions during the competition.

7. Team-Provided Questions:

- Each participating team is required to contribute questions to the event organizers before the competition starts:
  - 10 Easy Questions
  - 8 Average Questions (4 with multiple-choice options and 4 identification questions)
  - 5 Difficult Questions
- Questions must be written on a 1/3 crosswise short bond paper and must contain the correct answer.
- Submit your questions a day before the competition.

8. Cite Council Questions:

- The Cite Local Council may contribute additional questions to each round: 10 for "Easy," 8 for "Moderate," and 5 for "Difficult."
- These questions will be integrated into their respective rounds.

Quiz Topics:

Questions will cover a wide range of technology-related subjects, including programming languages, software development, hardware, IT history, cybersecurity, and emerging technologies.

Quizmaster:

An appointed quizmaster or moderator will read questions, keep track of time, and ensure fair play throughout the competition.

Note:

- *Teams will be provided with papers and pens to write their answers.*

- *Failure to raise papers on time will result in the answer being considered incorrect.*
